INTRODUCTION

Because of the great success of Shiba Inu, KoiShiba was born. KoiShiba is new cryptocurrency inspired by Shiba Inu and his mission is to help those who missed the Shiba Inu. KoiShiba has 10x faster block speeds and cheaper gas fees since its built on binance smart chain.

KoiShiba learned a lot from Shiba Inu, includes many advanced concepts, such as defi, nft, and gamefi . So a group of early Shiba Inu volunteers gathered together to create KoiShib. KoiShiba has great ideals and hopes to recreate the glory of Shiba Inu. KoiShiba will continue to explore in defi, nft, gamefi and other fields, and will meet you in the near future. Simply Love and watch your KoiShiba grow.

02 Plan

KoiShiba has a Big Dream.

KoiShiba was born October 2021 with the goal of being a decentralized meme project just like Shib Inu. KoiShiba is a fun meme with a serious mission to help those who missed the Shiba Inu.

KoiShiba Swap

We are meme tokens, but not just meme tokens. We will launch our own swap and actively embrace defi.

KoiShiba NFTs

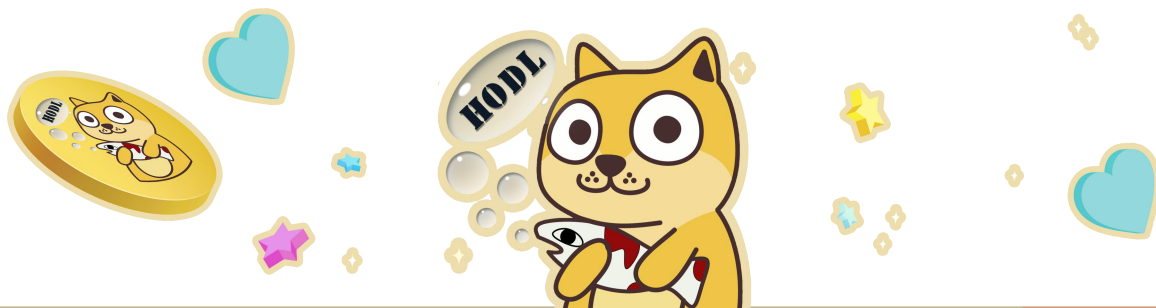

As the most important module in the blockchain world, NFT will also be an important part of our work. We will launch our own nft marketplace, allowing users to create and share their own NFT artworks, and let them generate value.

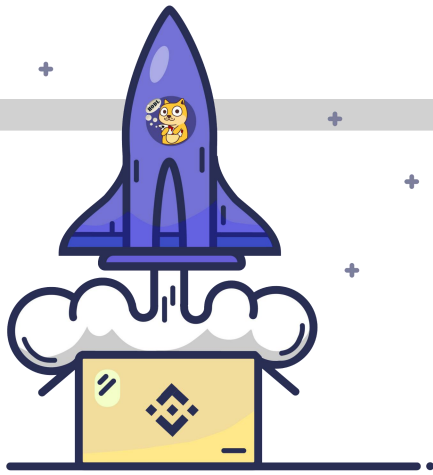

KoiShiba Fishing Master Game

Thanks to the inspiration of axie infinity, play to earn is a very popular concept now. Therefore, we will soon launch a blockchain fishing game around KoiShiba tokens, which will also be our most important part.

KoiShiba Smart Chain(Based on Ethereum)

In view of the high fees and slow transaction speed of Ethereum, in the future, we will launch the koishi smart chain based on Ethereum. We will start to modify the consensus mechanism of Ethereum to increase transaction speed and reduce handling fees, and use this chain as the infrastructure for our subsequent games.

03 Tokenomics

KoiShiba has simple token economics, holds it and continuously receives rewards. The marketing wallet will continue to be invested in marketing, there will be more holders in the future, and the currency price will get higher and higher
